

into the Reggio Emilia method in Italy and her role as an exchange professor to Napa Valley College's sister school in Tasmania, Carole has been described by her peers as "a role model for child advocacy throughout the nation."

Carole is being honored this week by the Napa County Child Development Consortia during its "Caring for Those who Care for Children Conference" at Napa Valley College. The Napa Valley is truly fortunate to have someone of Carole's caliber who works so tirelessly to improve the condition of the children of our community.

Mr. Speaker, at a time when our society is facing a growing demand for child development services, leaders like Carole Kent are essential to enriching the lives of our children. Please join me in honoring Carol Kent, a talented individual who is an inspiration to us all.

#### WELCOME HOME MARISSA

#### HON. NICK LAMPSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 17, 2001

Mr. LAMPSON. Mr. Speaker, I rise today to recognize and congratulate a team of individuals who worked together to recover a missing child.

Marissa Meuse was a year old when her noncustodial father abducted her from Florida in October 2000. Posters of Marissa and her father were created by the National Center for Missing and Exploited Children and distributed around the country. On March 22, 2001, Alberta Morris and Glenda Kay Thomas recognized pictures of Marissa and her father on a NCMEC poster displayed on the bulletin board in a Wal-Mart store in Ada, Oklahoma. The witnesses remembered that they had seen the little girl and her father earlier at a local laundromat. The poster indicated a felony warrant had been filed for the father and that the case was being handled by the Haverhill, Massachusetts Police Department in Haverhill and Federal Bureau of Investigation in Boston. The witnesses alerted authorities in Ada, Oklahoma and then proceeded to call a lead into NCMEC's hotline. The witnesses stated that the child was going by the name of Camille. Law Enforcement responded and after a short investigation were able to locate Marissa and her father living in a house in Ada, Oklahoma.

On March 23, Marissa was reunited with her searching mother thanks to these two Ada, Oklahoma, Wal-Mart shoppers. This successful recovery, part of Wal-Mart's Missing Children's Network, was the 50th for Wal-Mart in the six years since it began to feature missing child images in their store lobbies.

This morning I'd like to recognize individuals from Wal-Mart, Ernie Allen, the President and CEO of the National Center for Missing and Exploited Children, Alberta Morris and Glenda Kay Thomas, and especially Susan Pane, Marissa's mother, and Marissa herself. The National Center for Missing & Exploited Children has found that one out of every six children featured in its photo distribution program is recovered as a direct result of someone in the public recognizing the image and reporting to authorities. NCMEC's annual May campaign, *Picture Them Home*, is a reminder to the public to look at missing child flyers. This

recovery is an example of how taking the time to look at a child's face can lead to a happy ending.

Again, congratulations to all involved and welcome home to Marissa.

#### FOREIGN RELATIONS AUTHORIZATION ACT, FISCAL YEARS 2002 AND 2003

SPEECH OF

#### HON. RON LEWIS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 16, 2001

The House in Committee of the Whole House on the State of the Union had under consideration to the bill (H.R. 1646) to authorize appropriations for the Department of State for fiscal years 2002 and 2003, and for other purposes:

Mr. LEWIS of Kentucky. Mr. Chairman, I rise today in strong support of the Hyde-Smith Amendment. Once again, we are debating the use of federal tax dollars for abortion. In a poll taken last year, Fox News surveyed 900 Americans and found that 55% of them believed that abortion was wrong, with 15% not sure. Why are we using taxpayer dollars to fund abortion when the vast majority of Americans don't agree with it?

I am also amazed at the other side's argument that reversing the Mexico City policy will save lives! It does exactly the opposite by murdering children who just happen to have not yet been born. Don't let their rhetoric fool you! We do provide quality family planning for overseas family groups, and keeping the Mexico City policy in place will further protect the newest members of these families.

I urge my colleagues to vote "yes" on the Hyde amendment.

#### INTRODUCTION OF AN AMENDMENT TO THE INTERNAL REVENUE CODE OF 1986 TO EXPAND THE CREDIT FOR ELECTRICITY PRODUCED FROM CERTAIN RENEWABLE RESOURCES TO ENERGY PRODUCED FROM LANDFILL GAS

#### HON. DAVE CAMP

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 17, 2001

Mr. CAMP. Mr. Speaker, today, I am reintroducing legislation that would encourage the development of projects that capture landfill gas and use it as an alternative energy source. Furthermore, this bill would add incentives to landfill gas (LFG) projects by making the existing tax credit in Section 45 of the tax code available to them. Section 45 currently provides a tax credit for electricity generated by projects using wind, closed-loop biomass or poultry waste.

I believe the host of environmental and renewable energy benefits that can be provided by LFG projects, as described below, also deserve federal support. Additionally, our legislation would extend the current tax credits for wind, closed-loop biomass and poultry waste.

LFG is produced as waste decomposes in the many landfills that serve our communities.

If not captured, the gas is odorous, presents a fire hazard, and contributes to local air pollution.

This tax credit will encourage the installation of LFG utilization projects which capture and use the gas which would otherwise go unused. This captured product can then be used to generate electricity or as a fuel for heating. In addition, the captured gas can be used for industrial and commercial use and fuel cells or alternative fuel vehicles, decreasing our dependence on foreign fuels.

For communities owning municipal solid waste landfills, sale of the electricity or gas from such projects can provide a welcome stream of revenues to offset the cost of environmental controls at the landfills, including Clean Air Act requirements, and other costs related to solid waste management and recycling services. LFG's use can also significantly reduce greenhouse gas emissions.

Currently, there are about 270 LFG projects in existence, the bulk of which were made possible by a previous federal tax credit for development of non-conventional fuels. It is estimated that between 400 and 500 additional LFG projects could be brought on line if a tax credit were provided. With these potential energy projects on line, the nation could save more than 40 million barrels of oil annually.

#### RECOGNIZING DAVE CURTIN FOR HIS TWENTY-SEVEN YEARS OF LAW ENFORCEMENT SERVICE

#### HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 17, 2001

Mr. THOMPSON of California. Mr. Speaker, I rise today to recognize Dave Curtin as he retires from the St. Helena Police Department. Dave, a true friend of mine, has spent the last twenty-four years of his career serving the people of St. Helena, California.

As a native of St. Helena, I can attest to the strong embodiment of law enforcement that Dave proves on a daily basis. It is not solely in law enforcement that Dave has made a positive impact on; his involvement in numerous aspects of community life is invaluable to St. Helena. Dave is a fellow U.S. Army veteran, and he is also a colleague of mine in the American Legion, St. Helena Post 199. He has served as Post Commander five times in St. Helena. I am impressed with his unfailing commitment to our community.

Dave's dynamic experience includes stints as the Police Reserve Coordinator, Check Fraud Officer, Juvenile Officer, and acting Field Supervisor. In the greater community, he has served on the Napa College Criminal Justice Advisory Board, the St. Helena High School Attendance Review Board, and served on the negotiating team as president of the St. Helena Police Officers Association.

Dave is also involved internationally in law enforcement. As a member of the International Police Association he has been a host to numerous European and South African police officers visiting the Napa Valley.

A native of Northern California, Dave originally hails from Oakland, and he received his Bachelor of Arts Degree in Public Administration from California State University, Sacramento. He also holds a lifetime teaching credential from University of California, Davis.
